Robotic Process Automation

UiPath
Robotic Process Automation

Breadth

- Exception learning
  - Machine learning
- Accuracy
  - Robotic Vision
- Unstructured
  - NLP

Velocity

- Natural rule engine
  - NLP
- Understand human readable process maps
  - NLP + ML
- Process discovery
  - Analytics

Agility

- Intelligent work allocation
  - Predictive analytics
- Intelligent alerts
  - Predictive analytics
- Human - bot conversation
  - Chatbots

Security

- Two factor auth
- Real time monitor
  - Predictive analytics
