INSTITUTE FOR ROBOTIC PROCESS AUTOMATION & AI ANNOUNCES MALAYSIA CHAPTER

NEW YORK, NY – June 11, 2019 –The Institute for Robotic Process Automation & AI (IRPA AI) has announced the formation of its Malaysia Chapter to be led by GAIN, the Global Artificial Intelligence Network, based in Kuala Lumpur.

IRPA AI's partnership with GAIN will provide this new chapter with leading-edge market intelligence, best practices, essential resources, guidance and region-specific content and networking opportunities. The chapter will also provide access to the next wave of emerging RPA and AI technologies.

The IRPA AI Malaysia Chapter will position Malaysia as a major RPA & AI thought leader in the fast-developing market for robotic process automation, artificial intelligence, digital automation and digital innovation.

"GAIN has traditionally focused on academics, policy, and technology R&D issues," said Dr. CS Chan, President of GAIN. "By partnering with IRPA AI, we are adding a new focus on business applications of emerging digital technologies where GAIN and IRPA AI can play a role in shaping the future of Malaysia's growing business sector."

"IRPA AI is excited to partner with the Global Artificial Intelligence Network in Malaysia," said Eric Hochstein, Executive Director, International Development, IRPA AI. "Malaysia's role as a leading Asian hub for global business services and manufacturing makes it a center for the advancement of digital transformation. IRPA AI and GAIN will play key roles in the transition of companies there, and with GAIN, IRPA AI's Malaysia Chapter will lead the way, bringing thought leadership, best practices, and key tools and technologies to the market."

To join this chapter, become a member by visiting www.irpaai.comm/chapters.

If you're interested in sponsoring an IRPA AI chapter in the U.S. or abroad (specifically in Asia, Europe or Latin America), please contact Eric Hochstein at Eric.Hochstein@irpanetwork.com to receive a chapter lead benefits overview summary.

About IRPA AI

Founded in 2013, the Institute for Robotic Process Automation and Artificial Intelligence (IRPA AI) is an independent professional association and knowledge forum for the buyers, sellers, influencers and analysts of robotic process automation, cognitive computing and artificial intelligence. Our global network and advisory services offer leading-edge market intelligence, industry research, sourcing assistance, events as well as offer opportunities to learn and network with stakeholders across service industry functions. Membership in IRPA AI is free. To join and to learn more about IRPA AI please visit : www.irpaai.com.

About GAIN

Founded in 2018, the Global Artificial Intelligence Network (GAIN) is a non-profit scientific society devoted to advancing the scientific understanding of the mechanisms underlying thought & intelligent behavior and their embodiment in machines.

GAIN's desires to promote research in, and responsible use of artificial intelligence. GAIN also aims to increase public understanding of artificial intelligence, promote talent development, improve the teaching & training of AI practitioners, provide guidance for research planners and funders concerning the importance and potential of current AI developments and future directions.

To join and to learn more about GAIN please visit : www.global-ai.network or contact us at gain.secretariat@gmail.com.
